SPEEDTEST intelligence®

Fixed Network Performance Dataset: Field Mapping

Below, you will find field mapping information for Ookla's new Network Performance Datasets.
This information can be used to update data ingestion pipelines, reports, and dashboards utilizing Speedtest Intelligence data extracts (Android, iOS, Desktop, Web).
Unlike many legacy extracts, Network Performance Datasets provide consolidation across platforms. The "platform" column below indicates the platform(s) in which that data field is available.

Field Name: Desktop, Web, Android, iOS Extract	**Field Name: Fixed Network Performance Dataset**	**Platform**
test_date	ts_result	Desktop, Web, Android, iOS
received_date	ts_result_received	Desktop
timezone_name (Web, Android, iOS), loc_timezone_name (Desktop)	attr_location_timezone	Desktop, Web, Android, iOS
test_id	id_result	Desktop, Web, Android, iOS
guid	guid_result	Desktop
desktop_device_id (Desktop), android_device_id (Android), iphone_device_id (iOS)	id_device	Desktop, Android, iOS
isp_name	attr_provider_name	Desktop, Web, Android, iOS
isp_common_name	attr_provider_name_common	Desktop, Web, Android, iOS
platform_id (Desktop)	id_platform	Desktop, Web, Android, iOS
connection_type (Desktop), post_connection_type (Android, iOS)	id_connection_type	Desktop, Android, iOS
client_latitude	attr_location_latitude	Desktop, Web, Android, iOS
client_longitude	attr_location_longitude	Desktop, Web, Android, iOS
altitude	attr_location_altitude	Android, iOS
location_accuracy	attr_location_accuracy_m	Desktop, Android, iOS
location_age	attr_location_age_ms	Android, iOS

SPEEDTEST intelligence®

Field Name: Desktop, Web, Android, iOS Extract	Field Name: Fixed Network Performance Dataset	Platform
location_type	id_location_type	Desktop, Android, iOS
gmaps_name	attr_place_name	Desktop, Web, Android, iOS
gmaps_country	attr_place_country	Desktop, Web, Android, iOS
gmaps_country_code	attr_place_country_code	Desktop, Web, Android, iOS
gmaps_region	attr_place_region	Desktop, Web, Android, iOS
gmaps_subregion	attr_place_subregion	Desktop, Web, Android, iOS
gmaps_subsubregion	attr_place_subsubregion	Desktop, Web, Android, iOS
gmaps_postal_code	attr_place_postal_code	Desktop, Web, Android, iOS
user_agent	attr_browser_agent	Web
test_method	attr_test_method	Desktop, Web, Android, iOS
New	attr_test_ip_version	Desktop, Web, Android, iOS
test_source	attr_result_test_source	Web
connection_type (Web). net_speed_id (Desktop, Android, iOS)	id_connection_net_speed	Desktop, Web, Android, iOS
client_ip_address	attr_network_ipv4_address	Desktop, Web, Android, iOS
client_ipv6_address	attr_network_ipv6_address	Desktop, Web, Android, iOS
client_asn	attr_network_asn	Desktop, Web, Android, iOS
wifi_mac_manufacturer	attr_wifi_mac_manufacturer	Desktop, Android, iOS
wifi_frequency_mhz	attr_wifi_frequency_mhz	Desktop, Android
wifi_channel_width	attr_wifi_channel_width_mhz	Desktop, Android
wifi_is_5ghz	is_wifi_5ghz	Desktop, Android
wifi_is_2_4GHz_band_supported	is_wifi_24ghz_band_supported	Android
is_wifi_5_ghz_supported	is_wifi_5ghz_supported	Android

SPEEDTEST intelligence®

Field Name: Desktop, Web, Android, iOS Extract	Field Name: Fixed Network Performance Dataset	Platform
wifi_is_6GHz_band_supported	is_wifi_6ghz_band_supported	Android
wifi_is_60GHz_band_supported	is_wifi_60ghz_band_supported	Android
wifi_bssid	attr_wifi_base_station_id	Desktop, Android, iOS
wifi_rssi	attr_wifi_rssi_dbm	Android
wifi_rx_link_speed	attr_wifi_rx_link_speed_mbps	Android
wifi_tx_link_speed	attr_wifi_tx_link_speed_mbps	Android
wifi_max_supported_rx_link_speed	attr_wifi_max_supported_rx_link_speed_mbps	Android
wifi_max_supported_tx_link_speed	attr_wifi_max_supported_tx_link_speed_mbps	Android
wifi_standard	attr_wifi_standard	Android
New	id_wifi_standard	Android
download_kbps	val_download_mbps	Desktop, Web, Android, iOS
upload_kbps	val_upload_mbps	Desktop, Web, Android, iOS
latency, latency_min_ms	val_latency_min_ms	Desktop, Web, Android, iOS
latency_iqm_ms	val_latency_iqm_ms	Web, Android, iOS
latency_max_ms	val_latency_max_ms	Web, Android, iOS
multi_server_latency	val_multiserver_latency_ms	Desktop, Web, Android, iOS
latency_download_min_ms	val_download_latency_min_ms	Web, Android, iOS
latency_download_iqm_ms	val_download_latency_iqm_ms	Web, Android, iOS
latency_download_max_ms	val_download_latency_max_ms	Web, Android, iOS
latency_upload_min_ms	val_upload_latency_min_ms	Web, Android, iOS
latency_upload_iqm_ms	val_upload_latency_iqm_ms	Web, Android, iOS
latency_upload_max_ms	val_upload_latency_max_ms	Web, Android, iOS
ploss_sent	num_packet_loss_sent	Desktop, Android, iOS

SPEEDTEST intelligence®

Field Name: Desktop, Web, Android, iOS Extract	Field Name: Fixed Network Performance Dataset	Platform
ploss_recd	num_packet_loss_received	Desktop, Android, iOS
New	metric_packet_loss_percent	Desktop, Android, iOS
tr_hops	num_traceroute_hops	Desktop, Android, iOS
tr_ip_0	attr_traceroute0_ip_address	Android, iOS
tr_latency	val_traceroute0_latency_ms	Android, iOS
tr_ip_1	attr_traceroute1_ip_address	Android
jitter	val_jitter_ms	Desktop, Web, Android, iOS
multi_server_jitter	val_multiserver_jitter_ms	Desktop, Web, Android, iOS
model	attr_device_model	Android, iOS
manufacturer	attr_device_manufacturer	Android
chipset_name	attr_device_chipset	Android, iOS
chipset_manufacturer	attr_device_chipset_manufacturer	Android, iOS
radio	attr_device_radio	Android
device_ram	attr_device_ram_mb	Android
device_storage	attr_device_storage_mb	Android, iOS
system_memory_size	attr_device_system_memory_mb	Desktop
processor_count	attr_device_processor_count	Desktop
processor_type	attr_device_processor_type	Desktop
processor_frequency	attr_device_processor_frequency	Desktop
app_version	attr_app_version	Desktop, Android, iOS
android_api (Android), version (iOS)	attr_device_os_version	Android, iOS
server_name	attr_server_name	Desktop, Web, Android, iOS
server_country_code	attr_server_country_code	Desktop, Web, Android, iOS

SPEEDTEST intelligence®

Field Name: Desktop, Web, Android, iOS Extract	Field Name: Fixed Network Performance Dataset	Platform
server_sponsor_name	attr_server_sponsor_name	Desktop, Web, Android, iOS
server_latitude	attr_server_latitude	Desktop, Web, Android, iOS
server_longitude	attr_server_longitude	Desktop, Web, Android, iOS
km_between	attr_server_distance_km	Desktop, Web, Android, iOS
server_selection	is_server_auto_selected	Desktop, Web, Android, iOS
New	is_server_on_network	Desktop, Web, Android, iOS
download_server_count	num_server_download	Desktop, Web, Android, iOS
is_vpn (Android)	is_network_vpn	Android, iOS, Web
New	is_portal_included	Desktop, Web, Android, iOS
New	attr_portal_categories	Desktop, Web, Android, iOS
New	attr_connection_type_string	Desktop, Web, Android, iOS
sim_network_operator_name	attr_sim_operator_common_name	Android
raw_sim_operator_name	attr_sim_operator_name_raw	Android, iOS

Notes:
If platform designation (Desktop, Web, Android, iOS) is not presented and the field was available for all platforms, the legacy extract field name was the same across all extract types.

Previously, Ookla appended a "_a" to the field name to represent an extract tier; this antiquated field name designation was removed in legacy extract field naming column above.
